We are pleased to announce that registration is now open for our Spring Meeting. Join us on Tuesday, June 12th at the Rutgers EcoComplex where the topic of discussion will focus on Mobile GIS.

We will have a series of presentations which examine the behind the scenes aspects of mobile applications. John Reiser will kickoff the day by providing an overview of the open HTML5 platform, examples of what can be created using this framework, and some pointers on how to begin developing your GIS applications for mobile devices.

Seth Van Aken will present an in-depth look at select mobile options including iOS. The afternoon will include lightning talks from users about their mobile projects followed by the Mobile Doctors' Office, where all of our presenters will be available to answer your toughest mobile questions.

Register now at:

www.macurisa.org

Registration is only \$15. Continental breakfast, lunch, and refreshment breaks are included in the attendance fee. For more information or for general questions, please contact us at info@macurisa.org
