 ENTCHEV GIS ARCHITECTS

Our Spring Meeting will focus on different approaches to the implementation of Internet GIS. Each presentation will discuss a specific approach highlighting successes as well as potential difficulties, detours, and dead ends.

Rather than simply demonstrating the finished product, our speakers will cover some of the technical issues they faced during development and implementation.

The meeting will conclude with a panel of experts who will be prepared to discuss Internet GIS, answer questions, and address comments from you.

GISP Education Points will be credited at this event

Register Now at:

<https://www.acteva.com/go/macurisa>

Registration is only \$10. Continental breakfast, lunch & refreshment breaks are included in the attendance fee.

Mid-Atlantic Chapter of the
Urban and Regional Information Systems Association
